About This Game

Welcome to Plenty: Skyhearth

The first chapter of our story.

The objective here is simple. You are here to kill as many birds as you can with your bow and your HTC Vive or Oculus Rift. There are prizes to be won, leaderboards and achievements, and upcoming virtual reality archery tournaments. And sometimes, things aren't always as they seem.

Beat the high scores of your friends and the devs at Tiny Lions for fame and fortune! Our archery mechanic is simple and intuitive. Unlock mysteries and discover secrets in Skyhearth, the first glimpse into the larger world of Plenty and, perhaps, other worlds as well.

Our Goal

Plenty is an evolving gameplay experience, featuring virtual reality, traditional PC content, and alternate reality content. Plenty: Skyhearth is the first chapter of the VR content that Plenty offers. We will be updating frequently to implement other mechanics and traditional PC functionality.
